## Application: Boxes

**Head:** E101

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others).  
Ergonomic position, tool supported by a balancer  
Combi-machine PET, STEEL

## Application: Boxes

**Head:** E201/2

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others),  
Strap loop for high packs, strap taken back and pre-fed  
Combi-machine PET, STEEL

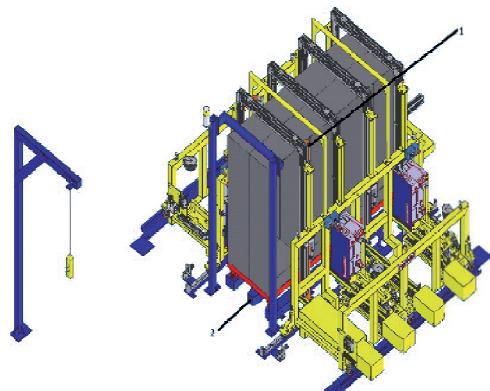

## Application: Boxes

**Head:** E201/2

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others), Strap loop for high packs, strap taken back and pre-fed  
Combi-machine PET, STEEL

## Application: Barrels

**Stand-alone solution for Horizontal straps**

**Options :**

- More heads
- Pre-stretch wrapper
- Top film water proof

## Application: Dollies

**Stand-alone solution for Vertical straps**

**Options :**

- More heads
- Pre-stretch wrapper
- Top film water proof

## Application: Boxes

**Strap and wrap automatic compact station**

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, top film, label

**Advantages:** Compact head with seal point in the corner, no smoke

# CONCRETE BRICKS ▼

[www.fromm-automation.com](http://www.fromm-automation.com) ●

## Application: Concrete

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

## Application: Concrete

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

## Application: Boxes

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

## Application: Concrete

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

## Application: Concrete

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

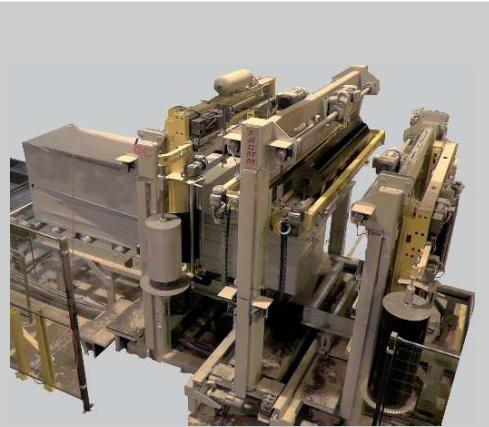

## Application: Concrete

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

### Curtain film packaging

### Orbital wrapper

4/6 sides closing

### Application: Panels

**Head:** E101

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others).  
Ergonomic position, tool supported by a balancer  
Combi-machine PET, STEEL and FILM

### Application: Panels

**Head:** E201/2

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others), Strap loop for high packs, strap taken back and pre-fed  
Combi-machine PET, STEEL and FILM

### Application: Lumber

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

### Application: Panels

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

### Application: Panels

**Head:** MH550/600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.

## Application: Coils

**Head:** E101

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others).  
Ergonomic position, tool supported by a balancer  
Combi-machine PET, STEEL and FILM

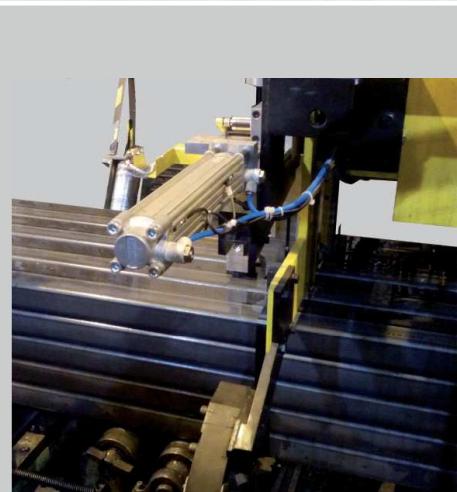

## Application: Sheets

**Head:** E201/2

**Position:** Top

**Options:** Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others),  
Strap loop for high packs, strap taken back and pre-fed  
Combi-machine PET, STEEL and FILM

## Application: Profiles

**Head:** MH150

**Position:** Top

**Options:** Sword, moving, press, bunks, corners, label

**Advantages:** Head with seal (2nd magazine off-line), galvanized/oil/painted strap, on demand for small bundle turning strap, no smoke and high temp.  
Combi-machine PET, STEEL and FILM

## Application: Slit Coils

**Head:** MH550

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, press, bunks, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high temp.  
Combi-machine PET, STEEL and FILM

## Application: Tubes

**Head:** MH600/610/611

**Position:** Top, side, incl., horiz., bottom

**Options:** Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.  
Combi-machine PET, STEEL and FILM

## Application: Tubes

**Head:** MH200

**Position:** Top

**Options:** Sword, moving, press, bunks, corners, label

**Advantages:** Without seal, galvanized/oil/painted strap, no smoke and high temp.  
Combi-machine PET, STEEL and FILM

### Application: Ingots

Head: E101

Position: Top

Options: Sword, moving, bunks, corners, label

**Advantages:** 1 operator in one side (no need of others). Ergonomic position, tool supported by a balancer

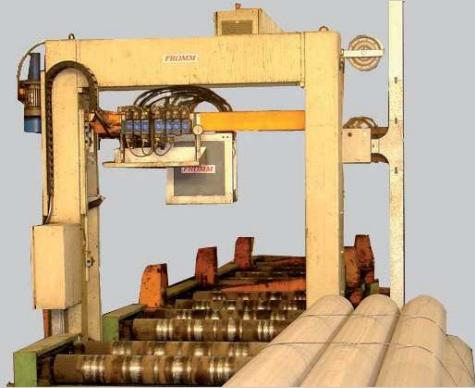

### Application: Profiles

Head: MH550

Position: Top, side, incl., horiz., bottom

Options: Sword, moving, press, bunks, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high temp.  
Combi-machine PET, STEEL and FILM

### Application: Billets

Head: M100

Position: Top, side, incl., horiz., bottom

Options: Sword, moving, press, bunks, corners, label

**Advantages:** Compact head sealless in the centre, galvanized/oil/painted strap, int. floating, strap not turned inside, no smoke and high temp.  
Combi-machine PET, STEEL and FILM

### Application: Ingots

Head: MH600 / 610

Position: Top, side, incl., horiz., bottom

Options: Sword, moving, bunks, press, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.  
Combi-machine PET, STEEL and FILM

### Application: Wires

Head: MH611

Position: Top, side, incl., horiz., bottom

Options: Sword, moving, press, bunks, corners, label

**Advantages:** Compact head with seal point in the corner, strap not turned inside, no smoke and high Temp.  
Combi-machine PET, STEEL and FILM

### Application: Coils

Head: MH200

Position: Top

Options: Sword, moving, press, bunks, corners, label

**Advantages:** Head without seal, galvanized/oil/painted strap, no smoke, int. floating and high temp.  
Combi-machine PET, STEEL and FILM

## CHAINS CONVEYORS FOR STEEL SHEETS

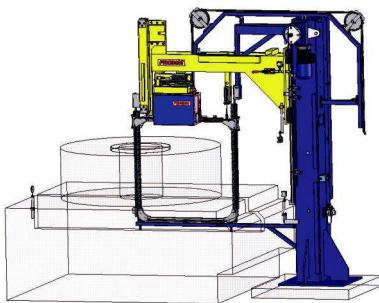

## ROLLS CONVEYORS FOR ALU WHEEL RIMS

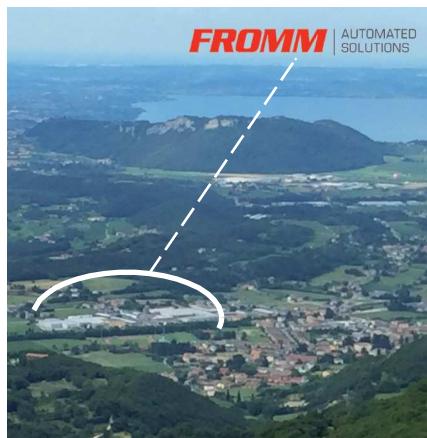

## SLAB CONVEYORS FOR SPECIAL MADE STEEL TUBES

At FROMM we have built a reputation as the trusted packaging supplier all over the world and we go above and beyond to meet and exceed our customers' needs. We take great pride in ensuring that we provide the right products and service to all our customers.

The strength of FROMM Automation is based on a 20 year knowledge of a qualified and skilled team able to develop unique packaging machines or complete packaging lines. The most advanced 3D technology allows the design engineers to find customized solutions for every company with any special requirements.

Established in 1947, the Swiss family business generates a turnover in excess of more than 230 million Euros and employs a workforce of more than 1100 people worldwide. More than 40 subsidiaries in Europe, North and South America, South Africa, Asia and Australia, along with a multitude of specialized sales partners throughout the world ensure - in your vicinity - professional advice, prompt customer service and maintenance. The company pursues a policy of logical vertical integration while upholding traditional values, which are the reasons for decades of success.

Production takes place round the clock in the **FROMM** production centers. Highly qualified teams of specialists manufacture **FROMM** - products satisfying the highest demands of quality on computer-controlled machines. All machines are tested before leaving the factory.

**FROMM** builds a full range of semi- and fully automatic strapping systems for integration into production lines. The machines are available for various industries and applications. Each system is customized, meeting the exact packaging requirements for the respective industry and application.
